

Tina Litsch - 2009 PHCA Excellence in Caregiving Award

Tina Litsch has worked for Country Meadows of Bethlehem since 1992. She began as a personal care associate with the assisted living population and dementia and restorative care communities and then advanced to Coordinator and finally, Manager of a 95 bed restorative program within the assisted living population.

No matter the position held or community she was working with, Tina's work ethic and patient, caring nature never varied. Her daily interaction is uplifting to residents and coworkers alike and she is always willing to lend a hand to anyone in need. Tina leads by doing and truly has a servant's heart.

Tina is also involved with coordinating daily events that brighten the lives of residents and takes time to encourage them to participate and engage in purposeful and meaningful activities. She promotes a true restorative philosophy and encourages residents to remain active and involved.

She has consistently remained a reliable hard worker that residents, co-workers and supervisors can depend on for a smile and laugh and it is my pleasure to have nominated Tina for the Excellence in Caring Award.
